Download

Call of Duty: Modern Warfare 2 ... It was originally a level 3 perk, because there is an image file called specialty_tactical_insert.iwi in the PC game files. This file contains a description of all perks that the player can use. Unlike the ini file, this file is a text file, not a graphical one. The file contains a description of the three perks from level 3. In particular, this file describes the perk "Sniper" (Sneak). It means that if the player gets this perk, he will be able to apply stealth skills wherever he is and at any level, regardless of his health and defense level.
