More... Why is  
Synchronization with GMail  
Address Book so important?  
Your business, social or  
personal contacts are stored  
as a Google Group, which is  
very different from the

---

usual address book applications you use. The address book has also many extra fields that you don't have to create contacts. You can have the iPhone address book synchronized with Google groups as well as a

---

single Google address book. This application will allow you to use these features and benefits of Google and Gmail. What are the key features? Create new Groups: You can create new Gmail groups and add new

---

contacts to them. You can add colors to Gmail groups depending on your mood. You can add the iPhone / iPad contacts as a Gmail contacts also. Create new Groups: You can create new Gmail groups and add new

---

contacts to them. You can add colors to Gmail groups depending on your mood. You can add the iPhone / iPad contacts as a Gmail contacts also. Use your address book: You can create new contacts and add

---

new contacts to your address book. You can assign colors to groups depending on your mood. You can also import your address book from any of the accounts like gmail, aaa@gmail.com, aaa@facebook.com. You

---

can export all contacts to  
aaa@gmail.com from any of  
the accounts. Create new  
contacts: You can create  
new contacts in your Gmail  
account. The new contacts  
are stored in the new created  
groups. Create new contacts:

---

You can create new contacts in your Gmail account. The new contacts are stored in the new created groups. You can also assign colors to groups depending on your mood. Manage Group/Contact: You can

---

manage your groups by adding / deleting contacts. You can see the lists of the contacts for a particular group. You can manage your contacts by adding / deleting them. You can assign colors to groups. Manage

---

Group/Contact: You can manage your groups by adding / deleting contacts. You can see the lists of the contacts for a particular group. You can manage your contacts by adding / deleting them. You can assign colors

---

to groups. Add color to groups: You can choose colors to groups. For instance, you can add pink color to the groups for a particular mood or if you are visiting to a *77a5ca646e*
