Dive into the writing process of this creative collaboration between H.B. and I. The Future of 7 Year Bitch: Future Music (OST): In lieu of another 7 Year Bitch album, here's a fresh look at what the future holds for I.A.S. We are H.B. Labs, a creative collective that develops creative music projects that focus on experimental sounds and psychedelic/ambient textures, but that are also melodious and catchy, if you so wish. Our entire artistic endeavors happen in the digital realm, where the creative process lives, and we ask of all our music to have a strong emotional connection, because as we are all truly human beings, emotions play a huge part in how we make art. For those that aren't familiar, we're a duo based in North Texas, who have been making music as the group 7 Year Bitch since 2007. H.B.'s solo body of work is a unique blend of synth-driven tracks with influences of Frank Zappa, Parliament/Funkadelic, and various 60s rock groups, while I.A.S.' solo body of work is a melodic and groovy brand of IDM influenced by Liquid Liquid, Junkie XL, and Aphex Twin. H.B. and I.A.S. have collaborated on writing and designing the music for different forms of media, including video games, cosplay/gaming costumes, original video content, and print pieces. Mutual Decline is the first H.B. Labs studio album, and the third 7 Year Bitch release. Mutual Decline: A few weeks ago, we released a self-titled 7 Year Bitch album, the first on a major label since 2002, when we released "Sex In a Hot Air Balloon." So we wanted to take a moment to reflect and share some of the stuff that made us excited about the new project that we've been working on for the past year. We feel as though it's a challenging thing to follow up a self-titled record with a new studio album, particularly because this is the first studio album that H.B. and I.A.S. have worked on as a collaborative project, and we're feeling the challenges that lie ahead. And while the last

The new game, revealed by the official name of ZombielandRavagers: Double Tap, aims to immerse players in the story and world of the acclaimed 2009Sony Computer EntertainmentAmerica (SCEA) launch title Zombieland. The new game is available for the PlayStation 3 on April 14th, 2016. From the official PlayStation blog: "As its name implies, the story of ZombielandRavagers: Double Tap begins months after the events of the original Zombieland. Following closely on the heels of Tallahassee and Little Rock, the story calls players back to the same dark and twisted country where they first entered the world of Zombieland. All of the characters return, along with the trademark humor and puns that have defined the franchise," said director Tony Cervone. "At the same time, the world of Zombieland has changed. While the President is dead, the park is no longer open to the public and the last survivors are being persecuted by a new and militant group of the undead."
