The Elden Ring (Elden Ring) is a fantasy action RPG developed by Level-5. As the first game in the franchise, the game features a new fantasy world, and provides players the chance to experience a brand-new fantasy RPG gameplay experience with an innovative multiplayer (co-op) system that can be played in real-time, and an original story featuring the mythic being of the Elden Ring. Players can search for a Tarnished Elden Lord, and run through a vast world full of excitement and challenge. While the game’s primary focus is on the fantasy RPG gameplay of leveling-up and battling, players can seamlessly enjoy the new world, exploring it in a number of different ways. ■ FANTASY GAMEPLAY Traditional fantasy RPG elements are blended together with a unique real-time multiplayer (co-op) system. Explore a vast world full of exciting dungeons, battle with powerful enemies, and build up an army to take on the darkness. The combination of a real-time multiplayer (co-op) system and a strategic turn-based battle system allows for numerous combat strategies to be experimented with. Players can run through a vast world with a party of up to 4 characters, exploring dungeons, battle monsters, and progress through the story in a dynamic turn-based (fixed-turn) manner, while taking advantage of unique co-op and online play elements such as asynchronous online play. Like many fantasy RPGs, characters have various levels, equipped items, and skills to develop and increase during their travels. The system allows players to develop a unique party by collecting various item skills, equipping items with various abilities, and then mixing and matching these items to play with the different abilities of each party member to reach the ultimate ideal party of four. ■ MULTIPLAYER “I challenge you in real time! Let’s go and defeat the monsters!” A brand-new multiplayer (co-op) system allows for a different type of gameplay to be implemented, allowing players to join forces and battle with other players over the net. Players are able to form a party of up to four people (including themselves) to explore dungeons. Synchronizing in real-time allows players to experience real-time battles against other players, with the battle ending
