Does anyone know why the old version of dragon warrior 2 does not work, while the new version does? I am sure the old one is crackable, just not working. I have tried several cracks and even went as far as to buy the game and put it on the original game cd, still no luck. A: It seems you are looking at different versions of the game, with different serial numbers. The old one is not crackable, while the new one is. The old one is the 'original' version of the game. This isn't crackable, since they specifically aimed to prevent cracking. The newer version of the game is the 'Enhanced Edition', and has a newer serial number, which can be used to pirate new content. Q: How to set different color for different object inside rectangle? I want to set different color for different object which is inside rectangle. Here is my code: public static void main(String[] args) { JFrame frame = new JFrame(); frame.setDefaultCloseOperation(JFrame.EXIT_ON_CLOSE); Canvas canvas = new Canvas(); canvas.add(new JTextField(10)); canvas.add(new JTextField(10)); canvas.add(new JTextField(10)); canvas.add(new JTextField(10)); JPanel panel = new JPanel(); panel.add(canvas); frame.setContentPane(panel); frame.setSize(200, 200); frame.setVisible(true); } I want to change the color of each textfield. For example the first text field should be red, the second one should be blue etc. A: JTextField textField = new JTextField(10); String string = textField.getText(); textField.setBackground(Color.RED); textField.setText(string); Here is what you are trying to do. I hope it helps. Photo: Trinity Pictures A few weeks ago, I expressed some doubts about the movie version of Stephen King's "It,
