You can edit the mesh using the Edit tab 2. You can even select different shape at same time using the desired shape as axis selection. (Using the Shift + A to select multiple items to be the same as axis) 3. Using the default cube, I have selected the top face. I press P to be in Pose mode. Now the top face is selected. 4. But if I press Shift+S to select all the faces then I can see the top face selected in the image below. 5. But I have selected the cube with rectangular faces (using the keyboard) so to
