Online Online experiences in FIFA 22 continue to grow with the game's largest online community yet. Connect to your friends and new rivals as you choose your favorite team and start winning in the biggest leagues in the world. Stability Several improvements have been made to FIFA 22's multiplayer and online stability. This includes an automatic matchmaking system which will help players find easier matches while stuck in a ladder, in addition to increased server capacity. Further improvements have been made to the FIFA rankings system. This is so players can use them more accurately in their online matches. There are also improvements in the ball physics system, with FIFA 22 using the same physics engine used in the single-player modes. Observer Mode FIFA 22 features a new feature introduced in FIFA 17. Using the Touch Control panel, players may observe their own players in mini-game experiences, and gain insights into their player's attributes. The platform then allows for a new class of coaching apps, allowing coaches to put themselves in the shoes of a player, and tailor tactics and training to match their own style of play. Career Mode The overall experience has been expanded. New stadiums have been added, team competitions have expanded, and the majority of the leagues in the world have been brought into the mode. The ability to play in 12-team tournaments is also available through Career Mode. Online Online experiences in FIFA 22 continue to grow with the game's largest online community yet. What's new:

- **Re-designed OVR Engine - FIFA 22 has a new and improved OVR Engine, introducing a host of new visual and graphical features to offer players, broadcasters and the FIFA community, crisp, detailed visuals and broader Player Awareness, even allowing you to influence your action on the pitch with the In-Play Experience.**
- **New Ball Physics - FIFA 22 introduces more realistic handling and flight attributes to the Pro-Lite ball, allied to more powerful, aware player reactions to the proceedings on the pitch. FIFA Tactical Defending - AI opponents also track the**

ball more effectively, switching positions and formations to make winning and losing much more complex.

- **Creative Atmospheres** -Tackle physics are now more enhanced, the player movements are propelled by the force of the ground collision, eliminating any unintentional camera-sliding you may experience with past FIFA titles. The heat map technology implemented in FIFA 20 remains, as well as Soccer Create.
- **Football Stars** - One of the FIFA community's most requested features has arrived, letting users unlock dedicated Stadiums, Players, and Teams based upon their favorite video game characters, pop-culture icons or sports heroes. Among the characters you'll find in-game are Messi, Rafael Nadal, Neymar and Cristiano Ronaldo.

Main article: FIFA FIFA (pronounced "fe-fa") is a series of association football video games. The primary series, produced by EA Canada since 1994, employs current rules of the game and is the best-selling sports video game series. EA publishes series sister games for various sports. What is football? Football is a type of sport played between two teams with a ball. Powered by Football The Most Comprehensive Game Engine Ever EA SPORTS FIFA 22 features more animation than any football game before. Every player is fully animated, not just the head and limbs. FIFA 22 also features a new leap pass, new throws from all players, new tools for free kicks, and more. New Standard of Play All football games in the past relied on the same mechanics, and the action was by far the most realistic. But FIFA 22 is the only football game to evolve how real-life football is played. Every part of how you control the ball, and exactly how players respond to your commands, has been changed to make FIFA the most authentic football game yet. Revamped Pass the Ball From the first touch to the last pass, every aspect of passing the ball has been overhauled. The new pass animation provides more variety and touches, making passes more tactically interesting. The new leap pass provides a more agile way to reposition the ball when passing. A New Standard of Skill Get ready for an improved crossbar and goal. A new, more intelligent placement system ensures shots are harder to take. Harder and more regularized foot-balls will provide more variety for goals and spectacular

goals. Partnerships with the Premier League, the Association of European Football Leagues and Major League Soccer FIFA 22 partners with Arsenal, FCA, Everton, Leicester City, Liverpool, Manchester City, Norwich City, Newcastle United, PSV, and Real Madrid to showcase the global popularity of their clubs. Today's Top Players Wanted FIFA 22 focuses on transferring the top, global stars like Neymar, Eden Hazard, and Gareth Bale from the Premier League. Plus, a new difficulty mode enables you to play with the best 16 players in the world. Dynamic Local Player Integration Player movement and positioning will dictate gameplay. For example, you can now see players' next moves on the global map and counter their moves
