
RTMPdump 2.5 With RTMPDumpHelper Full UPDATED Version

if you are new to screen capturing or streaming, i highly recommend that you begin by using the free software. it will be a long and frustrating journey to become an expert at streaming, and youll be much more likely to succeed if you have a solid foundation to build upon. audials is the easiest screen capture software ive used to date, and the rtmpdumpfree version offers you the most functionality for free. i need to add an option to use rtmpdump as a proxy server. so, i checked the source code of rtmpdump and found a configuration file called "rtmpdump.conf". the configuration file is located in the directory "\$home/rtmpdump-0.7.0/". i hope you have tried rtmpdump.dll from files\amadeussoftware\rtmpdump-0.0\bin\rtmpdump.dll&language=1&locationid=2&main=dumper&name=dump&serviceid=&servicename=dumper&servicenumber=dumper&servicesubid=0&servicesubname=&version=0.0&versioncode=1&versiondate=3/9/2009&versiondesc=0.0&versionid=1&versionname=0.0&vulnid=&vulnname="incorrect password for user/password."" files \amadeussoftware\rtmpdump-0.7.0\bin\rtmpdump.dll&language=1&locationid=2&main=dumper&name=dump&serviceid=&servicename=dumper&servicenumber=dumper&servicesubid=0&servicesubname=&version=0.0&versioncode=1&versiondate=3/9/2009&versiondesc=0.0&versionid=1&versionname=0.0&vulnid=&vulnname="incorrect password for user/password."" i also tried the rtmpdump and rtmpdumphelper methods on streamr.com. i found the same problems with streams there as with au2012. i do not know if this is due to the buffer that must be created to start the stream, or if the streams are not static. the best i could do was download video to my phone, and i couldnt view it because the video sizes were too large. i also tried coojah 6 with firefox 3.5 portable after installing portable flash.xpi manually and running both coojar and firefox as administrator and then downloading with blader. all of this happened in a virtualbox for safety. cant download video from google groups
